MSSSDS.

MSSSDS. *Master of Social Sciences in Sustainability & Development Studies*

- What kinds of policies and practices characterise countries undergoing rapid economic growth?
- How can policymakers and public stakeholders address the impact of economic growth and industrialisation on sustainability?
- What political and socio-economic contexts are critical for explaining development and sustainability dilemmas related to ecological crises, poverty, and inequality?
- Under what conditions can grassroots social and environmental movements shape development outcomes?
- What skills do policymakers and public managers need to operate in settings experiencing high social and political change, and to integrate policies for poverty, inequality, and sustainability?
- What financing and project management tools can be used to support sustainable development?
- What policy tools and instruments can be used to measure and calibrate sustainability performance?

If you are interested in exploring these and related issues, MSSSDS is for you!!

Featuring an innovative curriculum designed by leading scholars and practitioners,

CityUHK MSSSDS allows students to:

- Critically engage major theories and debates in sustainability and development studies
- Explore the political economy of Asia and global developments in a comparative perspective
- Examine social and political foundations of the dynamics between development and sustainability
- Gain hands-on training in policy advocacy and analysis related to sustainable development
- Gain practical training amenable to a variety of career paths

MSSSDS provides students with an opportunity to gain skills and knowledge relevant to working in :
