

細葉龍船花 (Ixora “Dwarf Orange”)

Ixora spp.

常綠灌木，廣泛栽培在熱帶地區，一般在夏季開橙紅色的花。因為花期很長、花序排列美觀、花朵顏色豔麗，所以最常用於園林美化。龍船花有很多不同栽培品種，細葉龍船花是其中一種透過栽培方式培育，特徵為葉片細及花朵燦爛。

Ixora 'Dwarf Orange' is an evergreen shrub distributed in tropical regions. It bears orange flowers in summer. Because of its long flowering period, arrangement of inflorescences and bright colour, it is widely adopted in landscaping. *Ixora* 'Dwarf Orange' is one of the *Ixora* cultivars. Its distinctive features are small leaves and showy flowers.
