Application for Credit Transfer/Coursework Exemption for Research Degree Students (SGS16C)

- Credit transfer may be allowed for students who possess postgraduate or other qualifications of relevance to their research studies. Approval
 from Department Head/School Dean or delegated authority of the course offering department/school is required if the course is NOT offered
 by students' home department/school.
- ii. At least half the coursework (4 credit units for MPhil and 7 for PhD) should be taken at CityUHK or other local institutions. In this connection, coursework exemption or credit transfer should be limited to a maximum of 3 credit units for MPhil and 7 for PhD. Recommendations on credit transfer or coursework exemption require the approval of the Department Head/School Dean.
- iii. Credit transfer may be considered only for credits gained from courses at postgraduate level which are relevant to the students' research studies. Students who have been granted coursework exemption or credit transfer should fulfill the remaining coursework requirements by taking taught/seminar courses, and not independent study or reading courses.
- iv. For qualifications obtained before admission to the University, applications should be made upon student enrolment at CityUHK.
- v. Applications for credit transfer for outside work completed after admission to the University must be made immediately in the semester following attainment of the additional qualification.
- vi. Students can be exempted from a requirement of a Programme. Credit units are NOT earned for an exemption from a course.
- vii. A list of approved courses and the syllabuses are available for reference on the School's website (http://www.cityu.edu.hk/sgs/rpg/student > Coursework Requirements > List of Approved Courses for Research Degree Students).
- viii. The application results can be accessed in AIMS (Student Record

 My Applications (for Professional Doctorate and Research Degree Programmes)

 Credit Transfer).
- ix. Successful applications of credit transferred/exempted course(s) will NOT be included in the official transcript for research students (except for courses taken under the Cross-institutional Course Enrolment Scheme).
- x. For students admitted on or after 1 September 2022, they are required to fulfil a minimum cumulative GPA of 3.0 in prescribed coursework for graduation. All courses a student has enrolled (including courses he/she enrolled by himself/herself without using SGS Forms) since he/she started his/her study will be taken into account when calculating his/her cumulative GPA.

Section A Student's Particulars (* please delete d	s appropriate)
